SWAYAM REPORT

PAST PERFORMANCE ANALYSIS

Percentile Score: 86.25

Mathematics:

The class average for Mathematics is 75, while the topper scored 98.

The student achieved a strong performance with a score of 89, demonstrating a clear understanding of the subject matter.

Science:

The class average for Science is 78, with the topper scoring 95.

The student's performance in Science is noteworthy, securing a score of 90, just 5 points below the top-performing student.

Social Studies:

In Social Studies, the class average is 88, and the topper scored 95.

The student's performance equals the top-performing student's score, both at 95, showcasing a comprehensive grasp of the subject.

English:

The class average for English is 78, and the topper achieved a score of 85.

The student's performance in English is respectable, with a score of 80, showing competence in the subject.

Hindi:

Hindi has an average score of 89, and the topper scored 98.

The student's performance in Hindi is exceptional, with a score of 96, indicating a strong command of the language.

Overall Analysis:

The student consistently performs well above the class average in all subjects.

Notably, the student's performance in Hindi and Social Studies matches or surpasses that of the class topper.

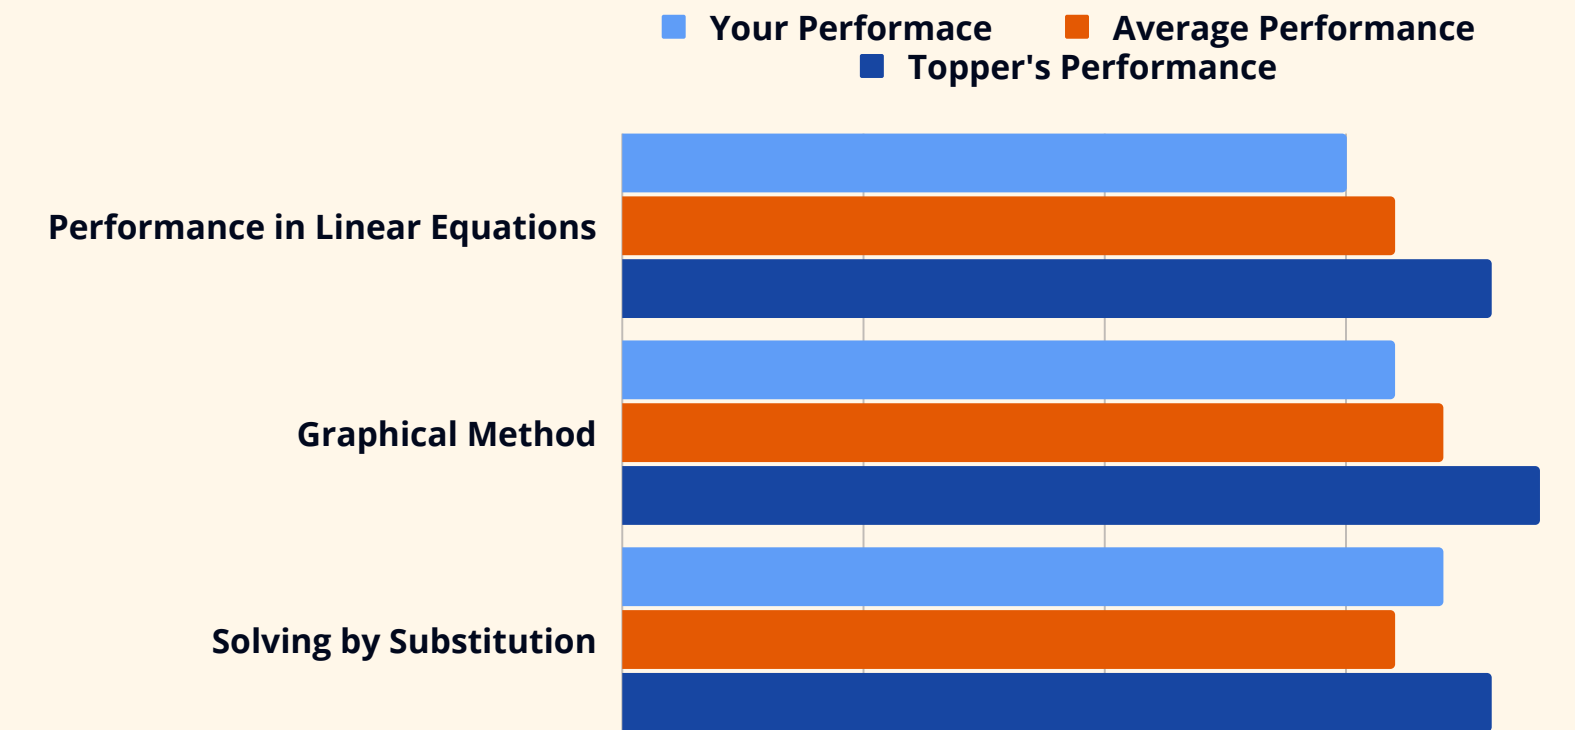

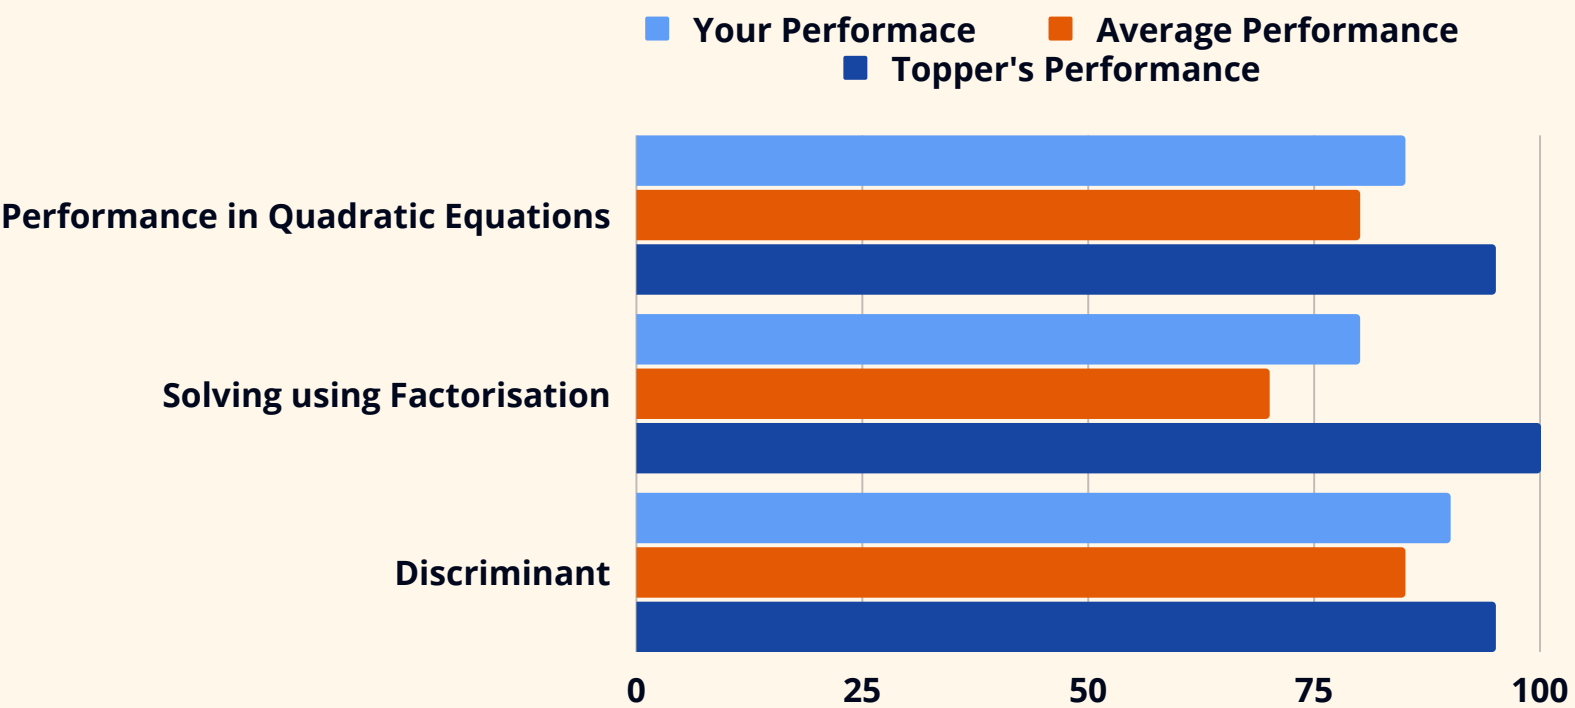

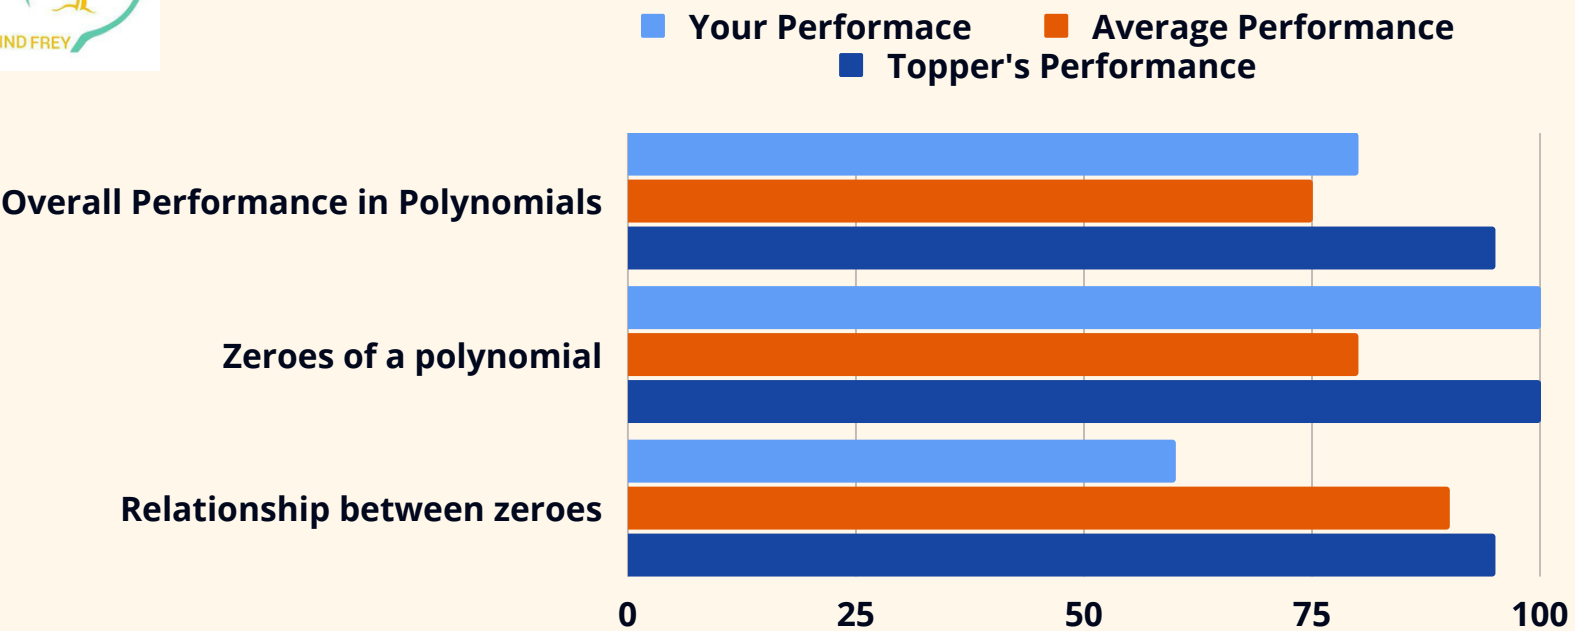

The student's strong performance in Science and Mathematics, just a few points behind the topper, suggests a high level of proficiency in these subjects.

This analysis indicates that the student is academically diligent and capable. To maintain and potentially enhance this performance, continued dedication to studies and targeted improvements, particularly in English and Mathematics, may be beneficial. Overall, the student's commitment to their education is evident, and their performance is commendable.

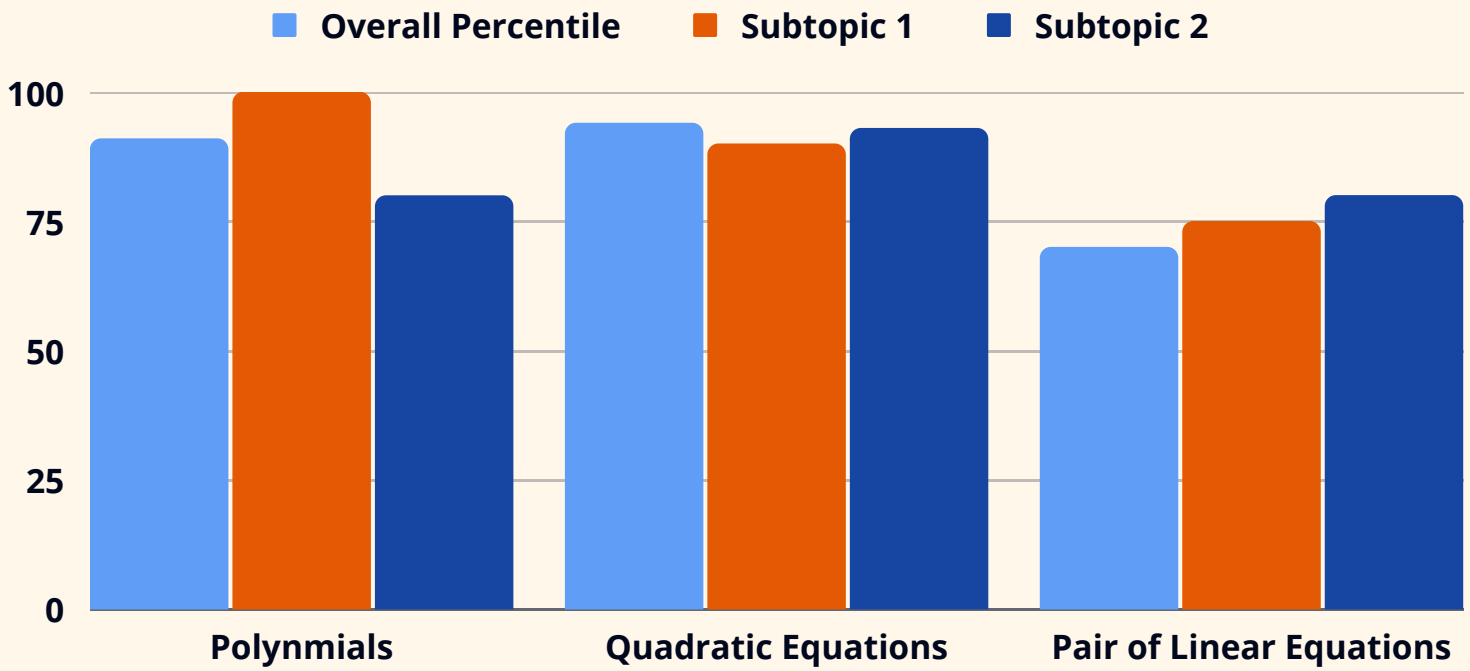

Mindfrey's Test Results

Chapter 1	Your Performance	Average Performance	Topper's Performance	Percentile
Overall Performance in Polynomials	80	75	95	91
Zeroes of a polynomial	100	80	100	100
Relationship between zeroes of a polynomial	60	90	95	80
Total	240			
Chapter 2				
Performance in Quadratic Equations	85	80	95	94
Solution using Factorisation	80	70	100	90
Discriminant and using the formula for solution	90	85	95	93
Chapter 3				
Performance in Pair of Linear Equations	75	80	90	70
Graphical Method	80	85	95	75
Solving by substitution, elimination, criss-cross	85	80	90	80

Relative Strengths of different Chapters

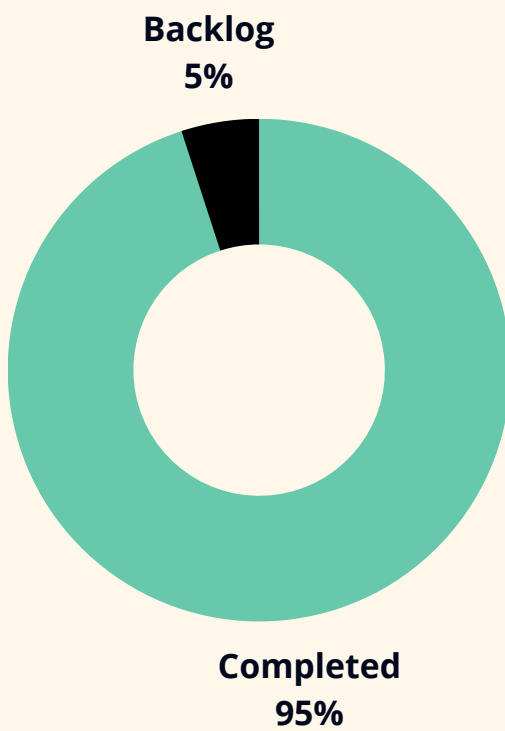

This segment of Swayam Report analyses the relative strengths of different chapters or different topics within a chapter. The percentage indicates the percentage of marks scored from that topic in a particular chapter or score from that chapter in that test.

15 Days Tracking Report

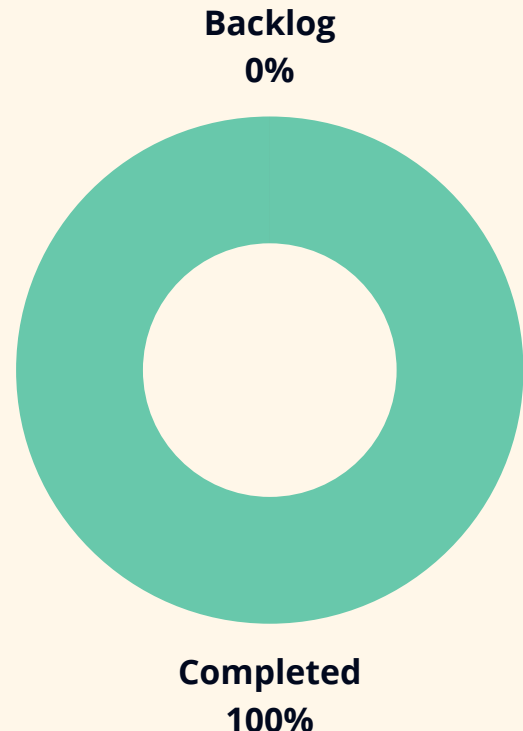

Task 1 Task 2 Task 3

Task 1

Task 2

Task 3

Analysis of Tracking Report

Task 1 : Complete Volume and Surface Areas

Good try! Young Champion. You were short by just 15%. However, in order to be able to cover up the syllabus on time and ensure proper time for revision, you must finish your syllabus as early as possible which might not be possible if you lag behind in completing the tasks allotted.

Task 2 : Complete Force

Excellent! You were just 5% shy of completing the task allotted. Ensure that you complete your entire task to avoid any backlog.

Task 3 : Complete Diseases

Fabulous! You finished the tasks allotted to you. Just remain consistent and you will score well.
